Includes
Teacher
and
Student
versions

DVD-ROM

Thematic Learning is a fun-filled multimedia teaching and learning resource for the classroom. Using an integrated approach to learning, it covers subject areas including Language, Math, Science, Music and Art.

Available as an annual subscription, the program includes teaching aids, interactive activities, multimedia stories, animated lessons and much more, to make classroom or home-school learning an enriching and engaging experience.

Teacher tools include the ability to send any combination of exercises to a class or specific student with record-keeping of student progress.

System Requirements:

Windows® XP / Mac OS X

Hard disk with 4GB of free space available

DVD-ROM drive (required for installation)

Internet connection (required for activation)

School Teacher Edition:

For 1 Teacher Computer and 5 Class Computers
